**ANTI- HIV DRUG**

**HOO-IMM PLUS**

*(A Function- Immuno Restorative) (A,B,C,D,E)*  
 Inhibits HIV virus, augments CD4 counts, decreases RNA Viral load count, checks against opportunistic infections.

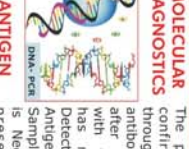

Turn to Nature and it's Remedies Natural  
**100% Herbal Hygienic Calthy**  
 Medicines and Food Supplements

**LAB FINDINGS**  
 98% inhibition against the causative agent HIV virus has been recorded in the Antiretroviral Activity Testing - Drug Sensitivity. Testing made in a lab studies revealing the highest inhibition rate among any other anti-retroviral medicines against HIV virus.

**CLINICAL OBSERVATION**  
 70% decrease in RNA viral load Realtime RT-PCR within first month of the treatment, and less than detectable level within 3 months of the treatment in the patients who were earlier possessing extremely high viral load counts more than 1 lakh to 2 lakh copies/ml of blood.

**MOLECULAR DIAGNOSTICS**  
 The patients earlier confirmed positive through Western blot antibodies test, later after the treatment with this medicines has recorded "NOT Detected" in DNA-PCR Antigen test, ie. The Sample of the patient is Negative for the presence of HIV virus.

For 5 Combination Kit \$75
